

Application No.: 10/571,507
Filing Date: March 10, 2006

REMARKS

Claim 1 has been amended to adopt the Examiner's suggestion in the Advisory Action dated June 30, 2010. In particular, a recitation "up to" has been replaced with "at", a recitation "by non-covalently linking" has been deleted, and a new limitation "of the group containing the nitrogen, oxygen or sulfur atom" has been added. Support for the amendments is presented, for example, throughout the specification. The remarks presented in the previous amendments still stand. Applicant respectfully request entry of the amendments and reconsideration of the present application in view of the amendments and the remarks set forth in the previous amendments.

CONCLUSION

It is respectfully submitted that the present application is in condition for allowance. Should the Examiner have any remaining concerns which might prevent the prompt allowance of the application, the Examiner is respectfully invited to contact the undersigned at the telephone number appearing below.

No Disclaimers or Disavowals

Although the present communication may include alterations to the application or claims, or characterizations of claim scope or referenced art, Applicant is not conceding in this application that previously pending claims are not patentable over the cited references. Rather, any alterations or characterizations are being made to facilitate expeditious prosecution of this application. Applicant reserves the right to pursue at a later date any previously pending or other broader or narrower claims that capture any subject matter supported by the present disclosure, including subject matter found to be specifically disclaimed herein or by any prior prosecution. Accordingly, reviewers of this or any parent, child or related prosecution history shall not reasonably infer that Applicant has made any disclaimers or disavowals of any subject matter supported by the present application.
